EXPECTATIONS

Welcome to Summer School Health! For this class, I will have two main expectations: **Have Respect and Try your Best.** As long as these two things are followed, we going to have a great summer!

COURSE DESCRIPTION

Health Education is a one-half credit graduation requirement for all high school students. The main focus of health education is to help guide students in making choices that will lead them to a healthy lifestyle. This class will assist students in the development of healthy behaviors that are based on accurate, factual information, healthy attitudes and practical skills. Students will learn to evaluate physical, intellectual, social, and emotional well-being and initiate a process of life-long learning designed to promote health and prevent disease.

ABSENCES

Students will be expected to make up any assignments they miss due to absence. Due to the accelerated pace of the course, **students who miss six or more hours of class will be dropped from the class.** Daily attendance is very important. Missing one class is equivalent to missing four days of instruction in a 51 minute class. Students who miss a quiz due to absence should make arrangements to complete the quiz promptly upon returning to school.

LATE WORK POLICY

Assignment completion is essential for success in Health. Full credit is awarded for a week after the due date. All late work must be turned in two days before the Final Exam.

RETAKE POLICY

Students will have the opportunity to retake quizzes; there will be no retake for the final.

COURSE SEQUENCE

- Unit 1 - Nutrition
- Unit 2 - Mental Health
- Unit 3 - Physical Activity
- Unit 4 - Substance Abuse Awareness
- Unit 5 - Reproduction and Development
- Unit 6 - Emergency Preparedness

CPR TRAINING

CPR training is a graduation requirement. Please make sure that your student is present on CPR training day during Week 4 to meet this requirement.
