

# Welcome to

I am so excited about the upcoming 2022-23 school year at Capital City High School. This year I will be teaching Algebra 1 and Algebra 1A, which are some of my favorite because the skills students build in these classes are in high demand in the job market.

Even if math is not your strongest or favorite school subject I look forward to being your teacher this year.

## Who is Ms. Shockley?

I was born and raised in Springfield, MO and recently moved to the area after graduating with two degrees from Missouri State University. This is my first year as a teacher, but not my first time in the classroom, as I worked as a substitute teacher before my student teaching semester at Marshfield High School. Needless to say that I am excited about the coming school year. Outside of school, I like to run, crochet, embroider and bake.
