CELEBRATE!

We have been working hard at learning and practicing our 1st grade and Belair expectations!

Our work has paid off and we've earned our class set of 30 classroom compliments. Classroom compliments are a 'Token' we earn together as a class from someone other than Mrs. Hall, in other settings than our classroom, for following 1st grade/Belair expectations.

We will celebrate our hard work and reward with bringing a stuffed buddy to school with us TODAY – Friday, December 13th.

Way to go first grade — keep up the GREAT work!

Smiles to YOU this Christmas!

= MATH

This week our learning focused on the number 10 while we continued to apply a level 3 strategy of making easier, yet equivalent problems by seeing and making a group of 10.

Decomposing an addend in a two-digit number sentence to create a ten and a three-addend expression may not come natural and seem easier at first, but with practice, it becomes easier than counting all or counting on. As students get better at using the make a ten strategy, they will deepen their number sense and form a foundation for the strategy of using benchmark numbers to find larger sums. Through Module we will continue to practice multiple math strategies and building our fluency with facts to 20.

AMP Rotation

Save The Date!

For: A Music performance: Pajama Party!
1st and 2nd Grade will present

When: Tuesday, February 4th, 2024

Time: 6:30pm

Where: Miller Performing Arts Center

Super Scientist

This week we learned about another object in the night sky..... The moon. We had several ah ha moments about the moon during and after our learning. What do you know about the moon?

Supper Talk: As you eat dinner with your kiddo ask them about our science learning.

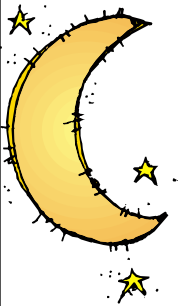

This week's learning:

What is the moon?

Does the moon create its own light?

Does the moon shape change?

How many days does it take the moon to cycle through all its patterns called moon phases?

DON'T FORGET!

☆ Coats, hats and/or gloves -

We go outside for recess morning and afternoon

☆ LIBRARY DAY is on

Mondays. Please return library books so new ones can be checked out.

☆ EVERY DAY COUNTS

JC Schools Attendance Matters

☆ Winter Break --

December 21st - January 1st
