Math: (Unit 6 - Data, Measurement and Time)

- *I can solve problems involving addition and subtraction of minutes.
- *I can measure length, liquid volume and weight of objects;
- *I can use the four operations to solve problems involving lengths, liquid volumes or weights given in the same units.
- *I can solve one- and two-step problems using information presented in bar and/or picture graphs.
- *I can use data shown in a line plot to answer questions.

Science:

- *I can compare and contrast observations on the life cycle of different plants and animals.
- *I can construct scientific arguments to support claims that some characteristics of organisms are inherited from parents, and some are influenced by the environment.

Math: (Unit 7 - 2D Shapes)

- *I can identify common attributes of a set of given shapes.
- *I can identify contrasting attributes of a set of given shapes.
- *I can classify rhombuses and rectangles, including squares, as quadrilaterals.
- *I can identify examples of quadrilaterals that are not examples of rhombuses and rectangles.

Map testing is coming up at the end of April/beginning of May.

Reviewing skills like adding, subtracting, telling time and counting money would be great practice for your child.

Quiz Bowl is April 13th - good luck to our bowlers!
