- Token Economy – SKYHAWK BUCKS!

- In 5th grade students will also be part of a token economy. The success of our token economy relies on having a lot of fun and exciting items for students to spend their hard earned money on. As you purchase your child's supplies maybe think about grabbing some fun pencils, erasers, small toys, games, cards, candy (full and snack size), drinks (soda, juice, water bottles), individual sized snacks, or anything else your child would work for. You can send them at any point throughout the year.
