

# Lewis and Clark seventh grade Encore classes

All seventh graders have two blocks of Encore classes in the middle of the day. Encore is just a general term we use to describe our elective classes. The encore classes are broken down into two groups: The Wheel and GHP.

## **“The Wheel”**

The Wheel classes are Art, FACS, Academy Exploration, and Public Speaking. These classes are an every day class all a term, 9 weeks, in length. Students will rotate through all four classes throughout the school year.

Any students taking Band, Choir, or Orchestra will not have the option to take any of The Wheel classes.

## **“GHP”**

Physical Education is a class that is all year long every other day.

Gateway to Technology and Health are classes that are each one semester long, 18 weeks, and every other day opposite PE.

If a student qualifies for EER, then they will have EER in place of the GTT and Health side of the wheel.
