

## Knowing How to Use Your Student System Credentials Card

Remembering usernames and passwords for all your accounts and subscriptions can be very difficult. Thankfully, most Jefferson City School District accounts are formatted the same, if not very similar.

Please check out the sample below to see how all the usernames are similar and all the passwords are similar. If the system your student is trying to use is not listed on his/her credential card, try using the same credentials as iReady. If that doesn't work, try using the same credentials as HMH.

For example, your student could be logging into their Destiny Discover account to read eBooks. Your student's username and password for Destiny Discover is the same as iReady.

That being said, Campus Portal isn't quite as simple. For Campus Portal (also called Infinite Campus or Student Portal), your student's username will always be his/her student number. The password should be the same as your student's Google password, but it may not. If your student can't figure out the password for Campus Portal, he/she should email the library media specialist. The library media specialist has access to Campus Portal and Google passwords only.

Sample Student

Grade: 6

Student #: 123456789

Person ID: 55555

### Campus Portal Account

Username: 123456789

Password: 55555jcps

### Student System Credentials

Teacher Name: Awesome Teacher

Student Name: Sample Student

Student # 123456789 Grade Level: 06

Email: sstudent6789@student.jcschools.us

6200-0 Imaginary Class

System	Username	Password
iReady	sstudent6789	55555
HMH	sstudent6789@student.jcschools.us	55555jcps
