

Mr. Hale's Newsletter

WEEK OF SEPTEMBER 6TH

PIONEER TRAIL MISSION

- Creating a community of learners where students' are actively engaged to reach their full potential and display positive character.

NOTES FROM THE TEACHER

- I want to say that the school year is off to a great start! Thank you to each of you for making this school year a great one so far.
- Your child may bring a water bottle to school each day, make sure that it can be sealed. Students may also bring a healthy snack to school.
- Please continue to work on those simple math facts at home; whether it is addition or subtraction. Students need to work on fluency without the use of their fingers, the more they practice the more fluent and easier it will become.
- **Homework:** Due every Friday. This can be completed on weekends, in the morning, during free time at school, all in one night, spread out between multiple nights, etc.

SPECIALS SCHEDULE

Monday: No School

Tuesday: PE

Wednesday: Counseling

Thursday: Art

Friday: Music

WHAT WE ARE LEARNING

Math:

- Our first chapter is entitled Addition and Subtraction within 1,000; we will be not only learning how to fluently add and subtract within 1,000 but we will also be rounding numbers to the nearest 10 and 100. Students will also learn how to use different strategies to add and subtract numbers into the hundreds easily using mental math.

Reading & Writing:

- During the first couple weeks of school we will be learning about how our Reading and Writing Workshops look and sound within the classroom. Students will also learn what is expected of them during Reading Groups as well as Independent Reading and Writing time.

Science:

- The students will begin learning about Static Electricity and Magnets. We will be planning and conducting investigations to determine the cause and effect relationship of electric or magnetic interactions between two objects not in contact with each other.
